

## **M4 FROM THE EAST** (route for horse boxes and trailers)

Take the M4 signposted to London. Take junction 19 M32 towards Bristol and stay in left lane.

After going round the roundabout join the M32 for one exit staying left and follow signs for the A4174 Ring Road.

Stay on this road going over lots of roundabouts until you come to a large roundabout on the A4. Turn left towards Bath and at the next roundabout turn right towards Keynsham.

At mini roundabout turn left by Chinese Takeaway and stay on this road until the end going through countryside. At the end of the road (by the Two Headed Man garage and junction) turn right onto the A39.

Turn left towards Farmborough at the lights (still on the A39 even though the road carries straight on ahead of you) immediately before a large garage (Esso) and Store. After turning, the garage/store will now be on your right.

After passing a large bright blue bed and breakfast with butterflies on the wall turn left into Timsbury Road passing Farmborough Tyres on your right.

After the Butchers Arms pub on the right and a row of local authority houses on a bank up on your left, slow down and indicate left.

The entrance to Tilley Farm is past a paddock and immediately after a large silage clamp made from railway sleepers on the left. Enter through a large double wooden gate. Parking is on the left after the clamp.
